Subject: Sequence Search

Importance: High

09/037,460

Please search SEQ ID NO:2, the entire sequence, a fragment from position 1 to 163, a fragment from position 30 to 44, and a fragment from position 55 to 69, and 30mers.

Please search SEQ ID NO:1, the entire sequence and a fragment from position 61 to 609, and 30mers.

Please search in the commercial and patent databases, and keep the interference searches separate (only need the interference searches for the entire sequences of SEQ ID NO:1 and 2 at this time).

Thank you,
Christine Saoud
